02 - How Your Tax Return Will be Prepared Using the No Site Visit Model

We will prepare your return without you coming to our site. We will email you instructions you will need to follow and forms that you need to complete. You will scan your tax documents and the completed forms we sent you and upload them to the IRS-provided tax software using a link we provide you. Our Counselors contact you using Google Meet video conferencing to review your tax situation before beginning work on your tax return. Tax-Aide Counselors will prepare your return remotely and contact you using Google Meet video conferencing to review your return with you and answer any questions you have. You will sign the tax return electronically using technology we make available to you and we will transmit the return to the IRS. You will receive a link to download and print a copy of your tax return.
